

## ① OUTCOME

Which people do we want to be better off in which specific ways because we acted.

## ② ENABLERS

Beyond the data, what else is needed to achieve our desired outcome?

## ③ ACTIONS

## ② ACTIONS

Who could do what differently if they had better information

## ③ INSIGHTS

What would we need to see to enable these actions

## ④ DATA

What data is required to create these insights?

IG & Ethics  
Can we access & use the data legally & ethically

Low attendance  
Free school meal

→ School.

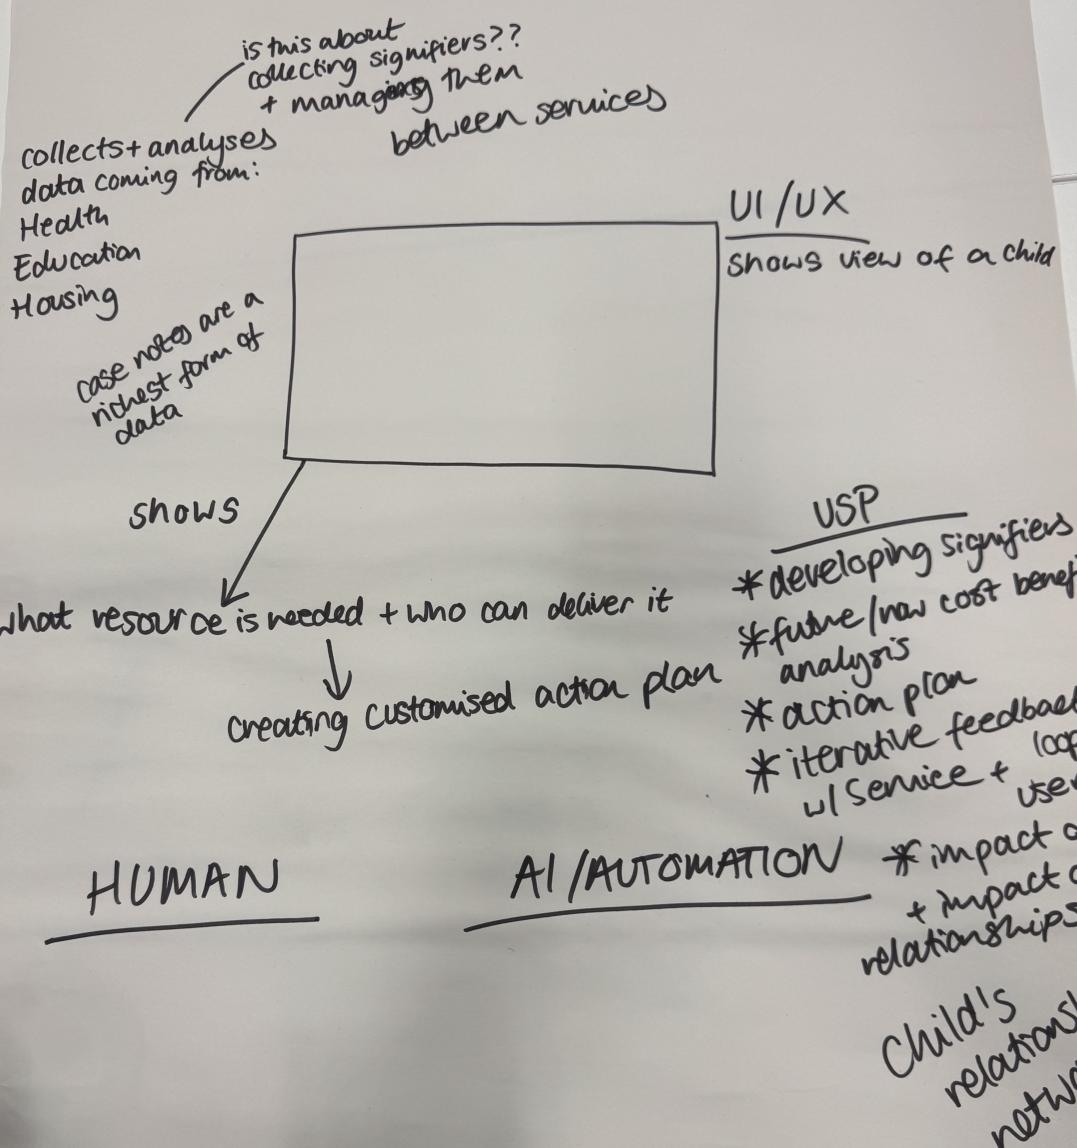

Housing benefit.  
Universal credit  
Low income.

→ Housing data.

CARE SYSTEM  
YOUTH JUSTICE  
TEMP ACCOM.

3 datasets to  
signify high risk  
or homelessness in  
the future.

School Send. — Health  
Housing — DATA / — Police.  
Census — / — Relationship data
